

Inclusion Hub Leader: Teaching and Intervention (Full-time/Permanent)

'To act justly, to love with mercy and walk humbly with our God' - Micah 6:8

Thank you for taking an interest in this new and exciting post - we look forward to receiving your application. We also would encourage you to come and have an informal look round our school and meet some colleagues from the team.

This role requires someone who is;

- *passionate about young people, aspiring to support them in their learning and personal development*
- *cares about their experience of education*
- *Understands the barriers that may inhibit student's ability to learn, make positive relationships and thrive.*

The information below has been collated to give applicants an understanding of our ethos and direction of travel in relation to our aims, which is; providing teaching, intervention and support so that all students in school can thrive.

About the school

Notre Dame is a Catholic school with a strong ethos at its heart. All staff are expected to uphold and contribute to the ethos of the school, which is what makes it a special place to work.

At Notre Dame High School, the Governing Body, Headteacher and all staff are committed to ensuring that all students have access to high quality education in a loving and safe environment.

Everyone is expected to;

- Build and maintain relationships with peers and staff that are positive, enhance lives and lead to happiness and joy
- Maintain the highest standards of personal conduct
- Accept responsibility for their own behaviour and encourage others to do the same

Our expectations can be summarised as follows;

'Ready' - Ready to learn, ready to listen, ready to participate because ***we educate for life.***

'Respectful' – Respect yourself and others, including your peers, adults and the school environment. We do this because ***we are a community that is welcoming, diverse, and honours each person's dignity.***

'Safe' – Everyone should feel safe in our learning community, safe with the people around them and safe in the activities in which they are taking part because ***we work for Justice and Peace.***

We are committed to a Trauma informed and Restorative practices approach in our interactions with students. We are inspired to do so by our ethos which is to uphold and protect the unique dignity of each child, and prepare them for life. This approach is about protecting our young people, helping them to heal, supporting them in becoming better regulated and making the right choices so they can have a happy and fulfilled life. In turn they are better able to contribute to the 'common good' of society themselves.

We believe that in our work we can make a real difference to the lives of all students and particularly those who face additional barriers. We believe that 'every interaction counts' and can transform lives.

We see behaviour as communication and challenge ourselves to ask 'Why are we seeing this behaviour?' This does not mean that we have a 'soft approach', in fact the opposite is the case. Students need structure, order and the predictability that our routines and expectations give them. We have high expectations and clear boundaries which need to be applied in a supportive, matter of fact, non-punitive way. We aim to be, ***firm on boundaries but kind on the child.***

Over the last few years we have been restructuring across the Pastoral and SEND teams to improve communication and provision, and the successful applicant would be joining the school at an exciting time.

Training and Support

At Notre Dame the ongoing professional development of all staff is a key priority. Our view is that we can always improve, not because we are not good enough, but because we can be even better at what we do and this in turn will ensure the very best outcomes for our students. We also aim to help staff to be ready for their 'next step' in their careers whatever that might be.

In order to achieve these aims we;

- have an ethos of 'learning together' through joint practice development which is conducted in a supportive and developmental way.
- Encourage staff to be reflective and take the lead in their own professional development so that their individual needs are met
- Assign Learning Improvement coaches to all departments to provide bespoke training and development

The successful applicant will complete a skills audit so that any necessary or desired training can be put in place.
